

April 22, 2015

Dear Parent or Guardian,

The healthcare staff at Morrisville-Eaton CSD works hard to ensure all medication refills are discussed in a timely manner with parents/guardians. Despite proper planning sometimes there is a delay in getting prescriptions filled and getting them to school.

Recently Morrisville-Eaton CSD has approved the use of stock Albuterol. This means any child who **currently has an order for Albuterol and runs out of their supply may use the school's stock while waiting for their prescription to be filled. The use of the school's Albuterol is only for these time periods when new prescriptions are waiting to be filled.**

Morrisville-Eaton CSD will need your permission to administer the medication along with your healthcare provider. Also, in order to maintain proper infection control we ask you provide a spacer for your child if they use a meter dose inhaler, or a face mask and tubing if they use a nebulizer.

An additional form is included with this letter to take with you to your doctor for your child's medication renewal. In the section labeled Albuterol orders, please have your doctor mark the appropriate box. Student medications must be renewed every school year. This form can also be found on the school's website.

If you have any additional questions please contact the health office.

Sincerely,

Renee Russell, RN
